my dear friend – I have a few sheets half decorated about queer languages and at the very corners of the earth. We could therefore be really obliged for a catalogue of the publications of the American Bible Society, particularly for any [illegible] those in the languages of the Sandwich Islands, and of the Mexican Indians. Testaments, Grammars or dictionaries. – Please take E. L. that the Library cause the check be paid. I send a piece of verse for the Liberty Bell. It is commonplace enough – but the subject requires to be put forward before the learned. They are from ignorance or apathy. I think my letter did some good – if you think it fit to put in, it may do more. I have disguised its tendency so that nobody will know who it is meant for in particular. You can use a little. I have written to all my correspondents – I am easy in mind. I am much obliged to E. L.

Yours ever truly. Rich D Hubbard
